

Properties of Shapes BOOM CARDS

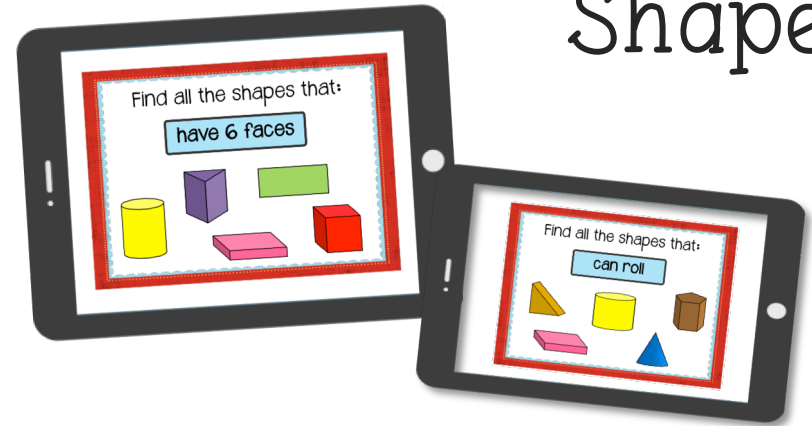

Find all the shapes that:
have 6 faces

The Boom Card displays five 3D shapes: a yellow cylinder, a purple cube, a green rectangular prism, a pink rectangular prism, and a red cube. A hand is pointing at the yellow cylinder. A blue oval in the bottom right corner contains the text "SELF-CHECKING".

Get Your Cards!

Enjoy this FREEBIE!

To start using your interactive Boom Cards, just click on the button above. You will be prompted to set up your free Boom Learning account where your cards will be stored for use on any device.

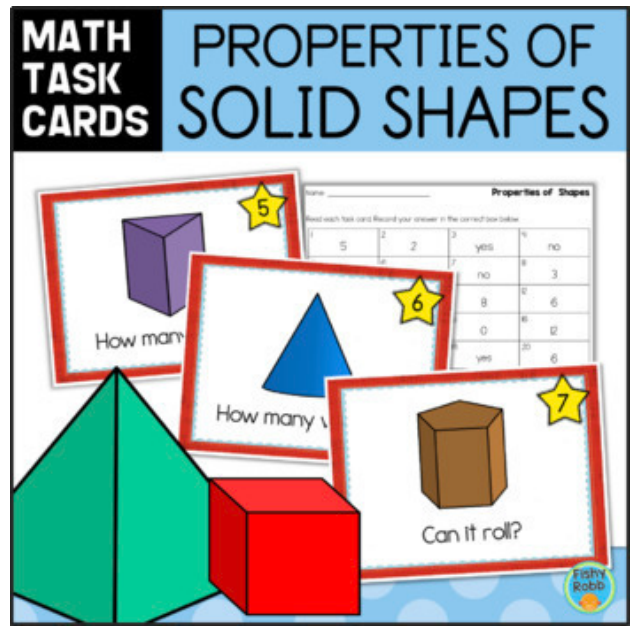

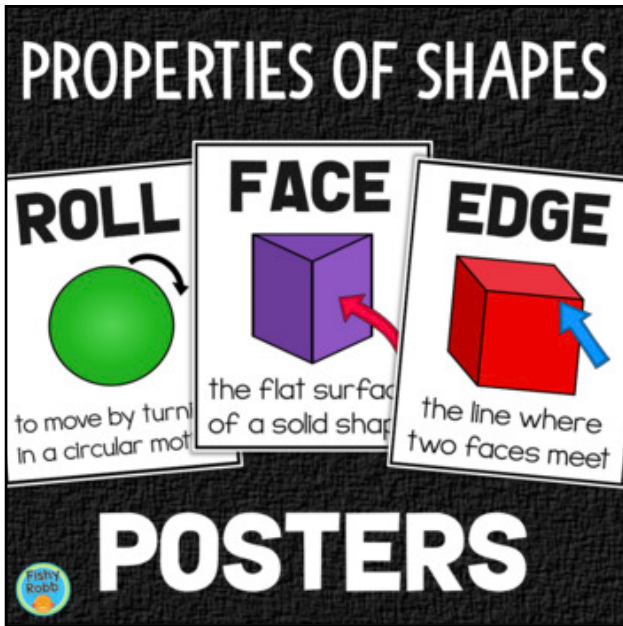

Boom Cards play on current browsers through interactive whiteboards, computers, and tablets. Boom Cards apps are also available in your app store.

When you redeem your purchase, Boom Learning opens an account for you if you do not already have one. The account you get with your purchase allows you to play the Boom Cards whole group with your interactive whiteboard and by individual students using Fast Play on any device.

For TpT customers new to Boom Cards, Boom Learning will give you, for one year, a free account that lets you track student progress for up to 80 students. At the end of that year, you may renew or choose not to renew. If you do not renew, you will still be able to continue using Boom Cards with the Fast Play feature. Fast Play does not track individual progress.
